With your filters set up, you can sort your results from the options in the top right corner. The default sort is "Newest Vids" at the top. You can also expand or collapse the filter menu, using the pink funnel icon located beside the sort options.

Creators

This leads to the [Creators homepage!](#) In the top sub-menu on the left, you can toggle between different categories of Creator: MV Girls, MV Trans, MV Boys and Producers. The number in brackets indicates how many Creators are there to discover in each upload category.

Creators are sorted by default according to their MV Score, which is based on earnings and activity within the last 45 days. You can change the sort order from the top right menu.
